<sup>1</sup> Research institutions are committed to graduate education through the doctorate, give high priority to research and receive more than \$15.5 million in federal research funds annually.

<sup>2</sup> Doctoral institutions offer a full range of baccalaureate programs and are committed to education through the doctorate. They award at least 40 doctoral degrees annually in 5 or more disciplines.

<sup>3</sup> Master's institutions offer a full range of baccalaureate programs and are committed to education through the master's degree. They award at least 20 master's degrees per year.

<sup>4</sup> Baccalaureate institutions primarily emphasize undergraduate education.

<sup>5</sup> Other specialized 4-year institutions award degrees primarily in single fields of study, such as medicine, business, fine arts, theology and engineering. Also, includes some in-

stitutions which have 4-year programs, but have not reported sufficient data to identify program category.

NOTE.—New institutions which do not have sufficient data to report by detailed level are included under "other 4-year" or 2-year depending on level reported by institution. Data are not comparable with preceding table.
